STOCK MARKET IS MUCH MORE ACTIVE

More Business Done in First Hour Than in Same Period for Some Days.

THE BREADTH AND YOLUME

General Conditions Better Than for Some Time-Crop News Reassuring.

NEW YORK, April 20.—More business was done during the first hour of to-day's session or the Stock Exchange than in the same time for many days past. Some of the features of the movement had commenced to arouse distrust by that time, and there was a relapse into dulness and uncertain fluctuations. Many stocks were active during the first hour that have been unresponsible to the recent attempts to revive speculative interest, and the whole market took on an appearance of breadth and volume that has been conspictiously lacking in the recent operations.

Stocks were but little responsive to the good showing of the Weather Bureau's weekly bulletin on the crops and to the moderate damage indicated by the Kansas State agricultural report for April. A plentiful rain for present needs in the upper Mississippi and lower Missouri Valleys was the report by the government bureau. Coupled with news of additional rains since and promise of more and the decided heaviness in the wheat market itself, the factors in the crop outlook were generally towards reassurance. The leadership of western railroad stock in such strength as the market showed was a reflection of the crop news.

showed was a reliection of the edge, news.

The rates for money for short periods continued to relax, but money brokers reported some stiffening of rates for longer periods. Some effect on future railroad earnings is looked for from advances in freight rates which went into effect in various quarters to-day. Bonds were irregular. Total sales, par value, \$1,446,000. United States 4s declined 1-4 per cent. on call. Total sales to-day, 777,000 shares.

NEW YORK, April 30.—Money en call easy, 2021-2; ruling rate, 21-4; closing bid, 2; offered at 2. Time loans irregular; 60 days, 31-2 per cent, and 90 days, 33-4 per cent; six months, 41-2 per cent. Close: Prime mercantile paper, 5:1-206 per cent. Sterling exchange easy, with actual business in bankers' bills at 34,8510941.8615 for demand, and at 34,8510941.8615 for demand, and at 34,830941.8505 for sixty day bills. Posted rates, 34,840941.87.5. Commercial bills, \$4,82,3-44,84,82,7-8. Ear silver, 66. Mexican dollars, 50.7-8. Government bonds easy, Railroad bonds irregular.

COTTON MARKETS.

COTION MARKETS.

1.EW YORK, April 30.—The cotton market was more active to-day and trading was more general than weeks, if not for months, past. Salor for the day were conservatively estimated at 450,000 bales, and with a good demand for both accounts the market made a new nigh regird for the current built movement, and sold at the highest files reached since last autumn. The closs was very steady at a net advance of 15@19 points up. The opening was steady at an advance of 6.88 points in response to 5.68 English cables and reports of cold weather in the South, where a spell of warm dry weather is said to be saidly needed. There was very heavy realizing at the advance, but prices gradually worked higher, and the market became very firm after the publication of the western both forecast, indicating no immediate improvement in the character of the weather.

The builtish weekly report of the Westher Bureau at midday also helped the market in the afterneon, and with July in New Orleans acting as though shorts were on the verge of a panic in that market and the South buying here, realizing sales were absorbed without checking the upward movement of prices. The close was within a couple of points of the best on the active months. July was the most active position on the list, and local traders believe that there is a large short interest in that pesition which is being rendered very uneasy by the continued pour weather and the persistent support of the built clique. Southern poor markets were unchanged to 5c. higher. It was rumored that a private wire reported spew in Ellis county. Tex.

ACTIVITY IN THE LEAF TOBACCO MARKET

The leaf tobacco breaks yesterday were large enough to keep the buyers interested for two hours or more, and the four warehouses sold at good figures something over 75,000 pounds of splendid working stocks or sun-cured leaf. The offerings varied from the commoner grades up to good wrappers, the latter binging in some instances as much as \$32, and from this figure flown to \$181 and \$20.

Many good filters showed up, and they were eagerly taken at prices pleasing to the iellers, while the common grades sold well around.

at Stonewall, third at Shockoe and fourth at Crenshaw's.

ACTIVE AND FIRM

There was not a little activity on the produce and fruit market yesterday, and the sales were larger than on Monday. However, the steady demand for pretty much severything kept the fisched productions of the preceding day. The receipts of vagetables from the far South were large, and in some instances prices weakened a fraction. This was especially noticeable in tomatoes, which, owins to crate lots.

Fruits of all kinds were high, the receipts being limited, and not sufficient to meet the demand. Fowls were in somewhat larger receipt, but the active demand forbade a reduction in the prices asked, and easily received. Spring chickens went readily at the former quotations of 25 to 30 cents per pound in the fathers.

GATES TO LEAVE WALL STREET FIRM

Report in Financial Circles That the Father and Son Are to Abandon Copartnership.

NEW YORK, April 30.-Wall Street was greatly interested in a report that the partnership existing under the name

was greatly interested in a report that
the partnership existing under the name
of Charles G. Gates & Co., No. 111 Broadway, is to dissolive and that John W.
Gates and his son, Charles G. Gates,
were to retire from the co-partnership.
There are twelve members of the firm
of Charles G. Gates & Co., and it is believed that the business will be carried
on under a different name. The retirement of Charles G. Gates and John W.
Gates from the co-partnership will, however, remove from the firm its most active members.
John W. Gates, it is said, will start for
Europe early in June. His son has confided to personal friends that he would
take a trip around the world. He will
spend the greater part of the summer in
Europe. Father and son recently bought
a shooting-box in southeastern France.
When questioned about the changes in
the Gates firm, young Mr. Gates said that
he was unable to make a statement at
present. Other partners declined to discuss the matter, and denials of the pendling dissolution were current in other
quarters.

Stocks and Bonds.

The stock market yesterday was interesting to Richmond investors, in that values seemed to be a little more substantial and a little more in accord with the built idea. A New York authority yesterday wired a friend in this city that he considered Atlantic Coast Line stock at present fligures one of the best investments on the whole list, and added: "Though it may not fluctuate so sensationally as some others, still it's worth has been demonstrated, and the present fligures nothing could be safer and it present fligures should easily advance to 120 before the end of the year, unless some calamity intervancements steel, issued yesterday, shows that the net earnings to March 51st were £39,122,500, an increase of \$2,388,290 ever the same period of last year. Unfilled contracts on hand amount to \$8,052,588, an increase of \$1,025,090.

In New York yesterday eighty dollars a share was bid for any amount up to 10,000 shares for certificates (when issued) of the tailed of Union Pacific is at hand, And yet nobody went begging.
